Estd: 2004

We at **“DHANUSH MEP Centres”** have a strong team of 30 full-time skilled faculty members and 25 non teaching staff. We have been constantly training and placing candidates both in the domestic as well as international market with various reputed companies.

Dhanush has been mandated to skill & place 1 Lakh youth by 2021.

The focus of the company is to establish, manage and operate skill development centers across India which acts as a bridge between unemployed youth and the industries, seeking skilled manpower.

MEP Centre is committed to grooming future MEP leaders. The MEP Centre has associations to ensure that students gain industrial exposure and have the opportunity to interact with industry leaders, entrepreneurs, and faculty from some of the world's leading business and MEP Industries.

This makes the MEP Centre one-of-its kind in India. The industrial-academic linkage ensures that the programme is relevant, international in perspective and delivered according to industrial standards. In a short span of Programme, students get an understanding of the Industrial Needs and are equipped to take on challenging roles in some of the best companies in the world.

Advantages:

MEP Centre is strategically located to create synergies between India, and the global business environment, with a backdrop of MEP thinking and practices from the West and the East. With a unique perspective on the emerging markets, our programmes enable students to capitalise on the opportunities of the global economy.

Dhanush EnggServices Pvt. Ltd developed this content in-house with committed and qualified Faculties and professionals. These courses are well structured, self-explanatory and user-friendly course content. You need not worry about stopping your day to day work. Whenever you have free time you can take these classes.

- ★ You can take this training any where and any time.
- ★ Structured and well refined Content.
- ★ User-friendly and self-explanatory.
- ★ Available at Affordable cost.
- ★ 24/7 you can take these courses for self training.
- ★ For any Technical clarifications “Dhanush MEP Centre” will support you online*.
- ★ Train yourself according to your requirements and upgrade your skill.
- ★ Dependence on trainer not required and you will learn on your own.
- ★ Can prove yourself to employer with your additional professional skill knowledge.
- ★ Very good chances to demand/request for next level promotion.

Sample Certificate

HVAC Design Course Curriculum

As per ASHRAE and ISHRAE Standards and Codes

1. Prelude to HVAC
Introduction to HVAC-R
Fundamentals & Modes Of Heat Transfer
Basic Refrigeration System or VCR System
Pressure Enthalpy Chart For VCR
Refrigerants and Brines
2. Basic Components of Air-Conditioning and Refrigeration machines
Accessories used in the System
Function and Types of Compressor
Function and Types of Condenser
Function and Types of Expansion Valve
Function and Types of Evaporator
3. Classification of Air-Conditioning System
Ductable Split AC Working of Ductable Split AC with Line Diagrams
Split AC Types of Split AC
Window AC Working of Window AC with Line Diagrams.
4. Categories of Air Conditioning
Categories of AC-1 All air system
Categories of AC-2 All water system
Categories of AC-3 Air-water system
5. Study of Psychrometric Charts
Psychrometric Charts - Work Sessions
Properties of air water mixtures
6. Heat Load Calculation
Heat Load Calculations-1-Survey of Building & Cooling Load Steps
Heat Load Calculations-2-Cooling Loads Identification & Estimation
Heat Load Calculations-3-Finding Transmission Coefficient Values
Heat Load Calculations-4-Heat Gains Through Walls, Glass, Roof, Partition
Heat Load Calculations-5-Finding Ventilation requirement for IAQ
Heat Load Calculations-6-ESHF, ADP & Air Flow Rate (CFM) Calculation
Heat Load Calculations-7-Sample Project
7. Air Distribution System
Duct-Definition & Terminology
Duct Design Considerations
Finding Duct sizes using Ductulator
Duct sizing as per Aspect Ratio
Duct Sizing Methods
Selection of diffusers and grilles
8. Static Pressure Calculation
Static Pressure Calculation
9. Hydronic System
Hydronic System Introduction
Hydronic System P & I Diagrams
10. Kitchen Ventilation System
Kitchen Ventilation
11. Green Building System Concept
Green Building Concept
